

AMENDMENTS TO THE CLAIMS:

Claims 1 and 2 (Cancelled)

3. (Currently Amended) A side rack rod for motor vehicle, comprising:
a pair of corresponding anchors~~[[,]]~~ each having a straight tubular section;
a curved pipe section at ~~both ends~~ an end of each of said straight tubular
~~section sections;~~
a fixed base at each of said curved pipe ~~section, and sections;~~
a sleeve disposed between ~~two said pair of~~ anchors; ~~characterized in that and~~
configured to receive said straight tubular sections, said fixed ~~base, bases~~ each having
a long groove hole, such that the maximum and minimum distances between said ~~two~~
long groove holes ~~fitting a range of various sizes~~ are adjustable according to the length
of at least one of said straight tubular sections and said sleeve; and
wherein said straight pipe section of the anchor has a length larger than that of
said sleeve.

4. (Currently Amended) ~~[[A]]~~ The side rack rod for motor vehicle as claimed
in claim 3, wherein said sleeve is hollow and interconnected between said straight pipe
~~section and curved pipe section sections~~ of said ~~anchor~~ pair of corresponding anchors.

Claim 5 (Cancelled)
